Get It Out of Your Head

"Get it out of your head that anything but the supply and the world's ability to buy fixes the price of Cotton."—Dr. Bradford Knapp.
THERE IS NOW ENOUGH COTTON IN THE WORLD TO LAST ABOUT TWO YEARS.

If you can wait to plant more cotton after having read the following figures then we must confess we have no more to say. IT IS UP TO YOU.

The ten-year average amount of American Cotton on hand imports at the beginning of each fiscal year.... 1,299,000 Bales

At Aug. 1, 1920, beginning present fiscal year, according to Dr. Knapp, amount American cotton..... 6,966,000 Bales

Production of all kinds of cotton in America during 1920-21..... 9,000,000 Bales

or 2,800,000 bales larger than any amount ever sown over before.

The greatest consumption of all kinds of cotton ever known in single year less than 1920-21..... 21,000,000 Bales

The greatest consumption American cotton any one year ever known less than 1920-21..... 15,000,000 Bales

Ten-year average consumption of all kinds of cotton in including American prior to great war..... 12,000,000 Bales

Consumption of all kinds of cotton, 1919-1920, U. S. Census figures..... 18,181,000 Bales

American crop of 12,000,000 this year indicates a world supply every year may reach a total of, or may exceed..... 12,000,000 Bales
